

HOW TO BE SUCCESSFUL AND HAPPY!

The Smart Woman's Guide to Intuitive Success

by Maria Last

Introduction

In this book you will be able to assess where your sensory awareness is at, you will know what actions to put in place to achieve sensory success and you will also understand what your strongest sixth sensory modality is and how to access and use it.

If you follow the steps and strategies in this book will you begin to notice intuitive guidance more strongly and with more certainty in your life - absolutely. The techniques and strategies outlined in this book are ones that I myself have used for many years with great success in my personal life and also enabling me to help people from all over the world to live more fulfilled, happy lives.

In this book I will share some of my own personal experiences with you. The reason for this is because I believe that by giving you a completely honest and clear insight into my intuitive life and how my intuition and sixth sense has served me, that you might find something that you relate to which will bring your sixth sensory memories even closer to the surface of your conscious mind which means that your journey will be freer flowing and more expansive from the start.

.... If you can answer yes to any of these questions you have experienced clairaudience. You have experienced your intuition responding to your request for guidance. Your auditory intuition becomes heightened in order to give you the answers and information that you most need.

HOW TO BE SUCCESSFUL AND HAPPY!

Your clairaudient intuition will always speak to you with kindness. If you hear a voice in your head telling you that you are no good or putting you down, you are hearing your ego, your fears. The best course of action in this situation is to simply acknowledge the fear and dismiss it. I like to think of my ego as a small yappy dog. When it pipes up I tell it very firmly to be quiet and to get back in its kennel.

..... So what's this got to do with Claircognizance or clear knowing? From where do we get information that we never knew we possessed? From where do we get ideas and creativity? From where do we get inspiration and insight? Do we manufacture it in the space left over by unused chunks or free space in our brain? Our intuition certainly works more effectively and clearly when we are not completely consumed and our brains are overloaded with information, however, these are not the workings of logically manufactured neurological processes.

All of these gifts of inspired knowing come from your intuition, directly from your spirit.

..... How do you recognise clairvoyance? Clairvoyance works at the speed of light, maybe even faster. The impression or image can come and go quite fleetingly, however, you need not worry about its speed, because it is so distinct in its clarity that you will recognise it. There is a distinct difference between a constructed image and one that comes to you through intuition.

.... right up front I'm going to tell you the truth. I have been psychic and a medium for as long as I can remember, which is a long time. One of my earliest memories is of looking up from my cot in the front sitting room of my parents' house and gazing at a beautiful ethereal, angelic female. I still remember the feeling of absolute love and security I had inside me on that day when I was only a couple of months old, and I believe that part of me has stayed connected to the spirit realm all of my life since then. I have been utilising this connection all my life and it has brought me some of the greatest joy, far beyond my logical expectations.

The second part of this truth is that you have had your intuition (psychic and mediumistic abilities) since the day you were born too, it's who you are and it's there to be enjoyed and to make life easy for you. I'm not special, I'm not gifted (the gift is in the sharing) and I'm certainly not on my own in this because everyone has the ability to use this amazing intuitive sense should they choose to do so, and how strong a muscle it becomes, and how reliable and dependable it is for you depends entirely on your choice to embrace it and accept all of yourself.

.... Following are simple steps for you to implement that are extraordinarily useful in terms of re-acquainting yourself with your intuitive self and accessing the power of your essential spirit.

A special note to remember is that it is very possible that your intuitive abilities fall under more than one of the main intuitive types listed above.

HOW TO BE SUCCESSFUL AND HAPPY!

You might notice that one modality is stronger than the others; that you are not sure whether you have experienced one or more at the same time; or maybe you are beginning to understand that you can say yes and tick the box to recognising that you have experienced all the major intuitive types. Like other people in a similar situation to yours, you may be wondering what your next step is going to be.

Intuitive people do not need to rely on the slow process of consciously analysing everything that comes across their path. Instead, they use their power of intuitive understanding and knowing to make reliable, confident decisions that are in alignment with who they are and that support their success.

.... Luckily there are solutions to these problems and challenges and they can all be found at IntuiChic.

It's time to move from the minefield of modern day mayhem to a place where you easily, consistently and confidently connect with your true self and use that power to create the happiness you deserve and shape the successes in your life.

Use your intuitive abilities to show you your next move.
